March 1, 2023

Rockford Engineering Works is pleased to announce its expansion with a Saskatoon office, located in Stonebridge at 206 – 502 Cope Way. The office opened October 1, 2022, following Rockfords 10th anniversary, and is the company's second Saskatchewan location.

“We have many amazing clients based out of Saskatoon” said Peter Couture, Director of Business Development for Rockford Engineering. “Our new location brings us geographically closer to them, allowing us to provide an even higher level of service while also expanding our presence to best serve the broader market.”

Having a Saskatoon office opens an expanded labor market to Rockford Engineering and the great talent fostered by the local University of Saskatchewan, Saskatchewan Polytechnic, and the vast private industry in the Saskatoon area.

Rockford specializes in industrial systems, machine design, fluid power, electrical and automation. Rockford has extensive experience in designing and building purpose-built machinery for mobile, industrial, and commercial applications.

Rockford's newest office is located at 206 – 502 Cope Way in Saskatoon, SK. For more information, please visit our website at www.rockfordworks.com, call 306-789-0089, or email info@rockfordworks.com. For information regarding opportunities with Rockford please visit our website.

***The Rockford Approach:
Engineering superior solutions with our partners in industry.***
